List out websites where i have to create an account for the experiments in the documents

Based on the documents you provided, here is a list of websites where you would need to create accounts or use tools for the various experiments:

1. **InfinityFree**: For Exercise 2 (Creating a personal WordPress website and hosting it on InfinityFree with SSL certification).
   - Website: InfinityFree

2. **Blogger**: For Exercise 3 (Creating a blog with a chosen title).
   - Website: Blogger

3. **Google Analytics**: For Exercise 4 (Enabling Google Analytics on a blog and generating reports).
   - Website: Google Analytics

4. **SEO Review Tools**: For Exercise 5 (Creating SEO-optimized content using an SEO content editor tool).
   - Website: SEO Review Tools

5. **Experte.com**: For Exercise 6 (Analyzing website performance using SEO audit).
   - Website: Experte

6. **GTmetrix**: Also for Exercise 6, to analyze website performance.
   - Website: GTmetrix

7. **Spotibo**: For identifying SEO issues.
   - Website: Spotibo

8. **BrokenLinkCheck**: To identify broken links on the website.
   - Website: BrokenLinkCheck

9. **Google Ads**: For Exercise 7 (Using Google Keyword Planner to discover keywords).
   - Website: Google Ads

10. **Ahrefs.com** and **Keywordsheeter**: For Exercise 8 (Keyword research).

- Ahrefs
- Keywordsheeter

11. **Fanpage Karma**: For Exercise 9 (Performing a social media audit).

- Fanpage Karma

12. **Ubersuggest**: For Exercise 12 (Competitor analysis).

- Website: Ubersuggest

These are the main platforms and tools you'll need to use for the experiments outlined in your documents.
